CHAIRMAN'S STATEMENT

Dear Shareholders:

On behalf of the board of directors of Tsui Wah Holdings Limited (the **"Company"**, the **"Directors"** and the **"Board"**, respectively), I hereby present the annual results of the Company and its subsidiaries (the **"Group"**) for the year ended 31 March 2021 (the **"Year"**).

I would like to take this opportunity to express my sincere gratitude to all the staff of the Group for their efforts contributed to the Group's performance during the Year.

Business Review

Attributable to the ambience of the global outbreak of the COVID-19 (the **"Pandemic"**) and the anti-epidemic measures imposed by the relevant places, there are still some uncertainties within the catering sector. As for the Hong Kong market, despite that the Hong Kong government (the **"Government"**) had relaxed the social distancing measures by extending the dine-in service hours, the volatile Pandemic had resulted in uncertain business environment and weak consumer confidence, which had caused adverse impact on the business in Hong Kong. Nonetheless, the Group had responded quickly by adjusting its takeaway discounts and enhancing its delivery services to customers via its own takeaway delivery team "Tsui Wah Delivery (快翠送)" and other online takeaway platforms, which had partially offset the impact of the decrease in traffic flow. During the Year, the Group had expanded its business in Hong Kong to e-commerce and launched an online platform. We hope that the new online platform could expand the customer base and bring additional income source to the Group. In addition, the Group has managed to receive rental reductions from some of the landlords at this difficult time, while suppliers have also offered discounts for orders. The staff of each branch performed their duties diligently, implementing proper sanitary and anti-epidemic measures and providing quality services for customers. During the Year, the Group recorded revenue of approximately HK\$956.4 million, representing a decrease of approximately 30.8% as compared with approximately HK\$1,381.5 million for the year ended 31 March 2020 (the **"Year 2020"**).

As the Pandemic has subsided in Mainland China, the Group's business has rebounded significantly since the end of March 2020, especially the business of those restaurants in the proximity of residential areas. Apart from seizing the opportunity arising from the rebound of dine in customers, the Group has been actively promoting its takeaway services and working closely with popular food delivery service providers. Given the gradually stabled domestic economy, the Group has also actively made strategic moves in different regions, especially in the Greater Bay Area. The Group has made timely adjustments in Mainland China. Branch network has been adjusted and the branches have been moved from larger venues to smaller but well-located venues in order to enhance operating efficiency. The Group's business in Macau has also gradually stabilised after the resumption of the Individual Visit Scheme and customs clearance services in August 2020. As for the overseas markets, the business in Singapore has gradually returned to normal and the Group has established a strategic partnership with Jumbo Group Limited with a view to further developing the market in Singapore. Also, the Group will carefully seek development opportunities in the Southeast Asia.

Notwithstanding the challenges, the Group is in a sound financial position with its consistent policy of prudent financial management. The Group currently has sufficient cash on hand, coupled with unutilised banking facilities, to meet its business needs. I believe that the Pandemic will pass, I am confident that the catering section would recover to the level prior to the Pandemic.

CHAIRMAN'S STATEMENT

Outlook

Looking ahead, apart from making further efforts in promoting our takeaway service, the Group will implement several plans including actively broaden its platforms and develop its new brands and explore other new business models with a view to maintaining flexible market responses and coping with the change in consumption manner. With a view to consolidating the brand presence and increasing the Group's market share in Hong Kong, Macau and Mainland China, the Group will accelerate its expansion in overseas markets and the Guangdong-Hong Kong-Macao Greater Bay Area, and strengthen marketing efforts to expand its customer base. Besides, the Group will pay attention to the global development of the Pandemic and flight status, and will continue discussing with the Airport Authority on the commencement date of the catering concession (the "**Catering Concession**").

I would like to express that we have been rooted in Hong Kong for over 50 years and have a deep affection towards Hong Kong. Over the years, we have experienced several economic cycles with Hong Kong. Despite the current unfavourable environment, we are confident that our management will be able to overcome the adverse impacts of the Pandemic and other uncertainties and generate the highest possible returns for the shareholders of the Company (the "**Shareholders**").

Awards and Recognitions

In recognising our efforts and contribution, during the Year, we had won a number of major awards/recognitions, including the 10 years + Caring Company awarded by The Hong Kong Council of Social Service; Corporate Environmental Leadership Awards 2019 awarded by Bank of China (Hong Kong); Best Brand of Diversified Casual Dining awarded by Business Innovator; Quality Tourism Services Scheme — Restaurant Category awarded by Hong Kong Tourism Board; Relay Hong Kong Award 2021 awarded by Legacy Academy; and Hong Kong Green Organization recognised by Environmental Campaign Committee.

Appreciation

I would take this opportunity to thank all of the Shareholders and all investors, customers, suppliers and partners of our Group for their unwavering support. I would also like to extend my appreciation to the management team and fellow staff members of the Group for their devoted commitment and contributions.

By order of the Board

MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY OVERVIEW

The global macro-environment took a huge downturn with the emergence of the Pandemic. For the purpose of stopping the Pandemic from spreading, various countries have implemented different degree of quarantine arrangements, boundary control or other travel and social distancing restrictions and measures, which caused unprecedented adverse impact on the global economy and their societies. According to the report from Hong Kong Census and Statistics Department, the overall restaurant receipts for 2020 shrank to HK\$79.4 billion, down from HK\$112.5 billion in 2019, which was the largest annual decline on record. Hong Kong International Airport posted a 89.9% year-on-year fall in passenger traffic numbers to just 58,000 for March 2021 as compared with the previous period. Waves of business closures and unemployment rates adversely impacted consumer sentiments and spending propensity. Social distancing measures, in particular, made an even more pronounced negative impact on consumer-facing sectors such as catering services industry. Inevitably, the Pandemic changed consumer consumption patterns and the Group's operating environment, and forced the Group to relook at its business model, product and service offerings, to sustain revenue levels and optimise costs base.

BUSINESS REVIEW

During the Year, the business of the Group in Hong Kong, Mainland China, Macau and Singapore had been inevitably continued to be affected by the Pandemic.

The Board formed the crisis management committee (the "**Committee**") in February 2020 and has been paying close attention to and treating the ongoing situation of the Pandemic with great caution. The Committee assess the impacts of the Pandemic on the Group's operation and financial performance and also to formulate any necessary prevention and contingency measures. The Committee is responsible for providing strategic direction and formulating stringent preventive measures to minimise the risks of the Pandemic and mitigate the negative impacts on the well-being and safety of the Group's customers and employees, and coordinating with the Group's senior management (the "**Senior Management**") and different departments on a weekly basis to take measures in response to the Pandemic. Besides, as a measure to regulate costs, all members of the Board and the Senior Management voluntarily reduced their remuneration by 30% from 1 February 2020 to 31 July 2020 and 15% from 1 August 2020 to 31 March 2021 and up to the date of this annual report.

As for the business in Hong Kong, it has been hard hit by four successive waves of the Pandemic. For the purpose of preventing social gathering and reducing dine out, the Government has implemented several rounds of social distancing measures, including compulsory social distancing and seat restrictions, and restrictions on dining time. These policies have seriously affected the consumption atmosphere, which caused a strike against the entire catering industry. Despite that the Government gradually relaxed the social distancing measures in October and November and the Group's business had improved during that period, the business of the Group deteriorated again in December resulting from the fourth wave of Pandemic. The uncertain business environment and weak consumer confidence had caused adverse impact on the business in Hong Kong.

Since the outbreak of the Pandemic, for the purpose of mitigating the adverse impact caused by the social distancing measures, the Group has been acting promptly by actively promoting its takeaway service. Besides the enhancement of its own takeaway delivery team "Tsui Wah Delivery (快翠送)", the Group also accepted orders of food and beverages from customers via other online takeaway platforms so as to enhancing the coverage of the Group's takeaway service and ensuring that customers were provided with fast, safe and high-quality catering services. Also, the Group offered discounts for takeaways, thus providing a solid contribution for its business. At this difficult time, the Group was offered rental reductions from some of its landlords and order discounts from suppliers. The staff of each branch performed their duties diligently, implementing proper sanitary and anti-epidemic measures and providing quality services for customers.

Nowadays, online shopping becomes more and more popular, and e-commerce area produces huge business opportunities. Therefore, the Group had expanded its business in Hong Kong to e-commerce area during the Year and launched an online platform that mainly supplies the Group's certain exclusive bakery products. We hope that the new online platform could connect with new consumers without boundary so as to expanding the customer base and bringing additional income source to the Group.

Besides, on 12 May 2020, the Group was granted a licence through tender by the Airport Authority to operate the Catering Concession. In response to the Pandemic situation and the travel restriction implemented by the Government, the Airport Authority has agreed to extend the rent-free fitting out period.

MANAGEMENT DISCUSSION AND ANALYSIS

During the outbreak of the Pandemic, the business in Mainland China performed better than the Hong Kong. At the beginning of the year, the Central Government has implemented lockdown policies in various cities and a number of emergency prevention and control measures to mitigate the risk of the Pandemic spreading further in the country. As a result of the prevention measures, the Pandemic has begun to ease in most areas in Mainland China after the end of March 2020, except for certain areas where there has been a recurrence of infections.

Most of the Group's restaurants have gradually resumed operations since then and, through seizing the opportunities arising from the rebound of dine in customers, there has been a significant rebound in the Group's business, especially in the branches in residential areas. The Group has been actively promoting its takeaway service and working closely with popular food delivery service providers, namely Meituan and ele.me for food delivery services in Mainland China.

As the Pandemic subsided gradually in Mainland China in the second quarter of 2020, and the domestic economy has gradually stabilised, the Group stepped up its effort in expanding its business, especially in Greater Bay Area. Covering 56,000 square kilometres (about three times the size of the San Francisco Bay Area), the Greater Bay Area has a combined population of over 72 million people and GDP of around US\$1,679.5 billion. It is believed that a tremendous potential development will be brought to the Group given the strong spending power within the region. As at 31 March 2021, the Group is operating 22 restaurants in the Greater Bay Area, 6 of which are opened during the Year.

The Group has built a strong brand in Hong Kong and has been striving to promote Hong Kong-style food and culture globally. The Group established a strategic partnership with Jumbo Group Limited in Singapore and was operating a Hong Kong style Cha Chaan Teng under the brand of "Tsui Wah" during the Year. Leveraging on Jumbo's strong presence in Singapore, the Group is confident that this joint venture will be successful and is expected that "Tsui Wah" and its products will establish an excellent international reputation among the 5.6 million residents living in Singapore.

As the Pandemic in Singapore has subsided and the market in Singapore has continued to recover, it is expected that the business will gradually return to normal level. The Group will expand its network in the region and a new store has already been opened in JEM in May 2021. The Group plans to open 1 more restaurant in Jewel in August 2021 with a view to further developing the Singapore market.

During the Year, the licensor of the Heeren shop, Robinsons, went into liquidation and the Heeren shop was temporarily closed from December 2020. Nonetheless, the Group is striving for the re-opening of the shop as soon as possible.

The Macau government resumed customs clearance services for mainland visitors under the Individual Visit Scheme in August 2020, and relaxed border controls in February 2021, so that all inbound mainland visitors are exempt from quarantine requirements as well as commenced COVID-19 Vaccination Programme in early February 2021. As such, the Group's business in Macau has recovered and back on track.

The Group has also reviewed its restaurant network in Hong Kong and Mainland China, integrating restaurants with overlapping geographic coverage, relocating its restaurants from larger venues to smaller but well-located venues, shortening business hours or even temporarily suspending the business of some of its restaurants as well as maximising its operational efficiency to ensure an effective cost control.

During the Year, the Group had opened 15 restaurants, 8 in Hong Kong and 7 in Mainland China, and closed down 19 restaurants, 15 in Hong Kong, 3 in Mainland China and 1 in Singapore. As at 31 March 2021, a total of 79 restaurants were operated by the Group in Hong Kong, Mainland China, Macau and Singapore. The Group has been taking close heed of the development of the Pandemic and the market conditions and keeping an eye on its restaurant network strategy with a view to seizing the opportunities in the market and actively making strategic deployments in different regions (especially the Greater Bay Area).

MANAGEMENT DISCUSSION AND ANALYSIS

Despite the tough external environment, the Group tried to strike a balance between protecting employment and managing our expenses. We believe that the Pandemic will pass, and we are grateful to the Board and the Senior Management for volunteering a reduction in their remuneration to tide through this period with the Group.

The Group received Government subsidies of approximately HK\$55.4 million under the Anti-epidemic Fund and the Employment Support Scheme during the Year, which helped to alleviate the current pressure and offset the negative impact to a certain degree.

FINANCIAL REVIEW

Revenue

Revenue of the Group for the Year was approximately HK\$956.4 million, representing a decrease of approximately 30.8% as compared with approximately HK\$1,381.5 million of the previous year. The decrease in revenue was mainly attributable to the closure of restaurants, the sharp decline in the number of visitors and local diners since the outbreak of the Pandemic and the weak market sentiment in Hong Kong.

Cost of inventories sold

The cost of inventories sold for the Year was approximately HK\$285.4 million, representing a decrease of approximately 29.1% as compared with approximately HK\$402.4 million of the previous year. The cost of inventories sold accounted for approximately 29.8% of the Group's revenue for the Year (2020: approximately 29.1%). The ratio of cost of inventories sold in proportion to the Group's revenue for the Year increased as compared to the previous year, mainly attributable to the rising cost of overall food materials. Besides, in response to the Pandemic, the Group offered takeaway discounts for customers during the Year, which had also led to a corresponding increase in the ratio of the cost of inventories sold.

Gross profit

Given the decrease in revenue and increase in the ratio of cost of inventories sold, the Group's gross profit (equivalent to revenue minus the cost of inventories sold) for the Year was approximately HK\$671.0 million, representing a 31.5% decrease from approximately HK\$979.1 million for the previous year.

Staff costs and human resources and remuneration policy

As of 31 March 2021, the Group employed 2,186 employees. The Group's staff costs for the Year were approximately HK\$311.8 million, representing a decrease of approximately 38.2% as compared with approximately HK\$504.2 million of the previous year. Since the outbreak of the Pandemic, all members of the Board and the Senior Management have voluntarily reduced their salaries.

The Committee also provided strategic direction and formulated preventive measures, including adjusting the business hours of restaurants and rearranging manpower accordingly, to mitigate the negative impacts on the well-being and safety of the Group's customers and employees and control costs to offset the impact of the Pandemic on income reduction. Furthermore, the Group will continue to integrate restaurants with overlapping geographic coverage, optimise the corporate structure and upgrade the internal operating system of the Group through technological development so as to boost the productivity of employees and enhance the efficiency of management and communication.

Remuneration packages are generally determined by reference to market norms, individual qualifications, relevant experience and performance. The Group periodically reviews the remuneration of its employees and has made slight increments to the base salary of its staff during the Year in line with the Group's human resources practices.

In addition, the Company adopted its share option scheme on 5 November 2012 (the "**Share Option Scheme**"), where certain eligible persons whose contributions have been beneficial to the performance, growth or success of the Group would be awarded a personal stake in the Company. Since the adoption of the Share Option Scheme, no options have been granted. As at 31 March 2021, no share options were outstanding under the Share Option Scheme and no options were exercised, cancelled or lapsed during the Year.

MANAGEMENT DISCUSSION AND ANALYSIS

Further, the Company adopted a share award scheme on 9 August 2018 (the “**Share Award Scheme**”) for the purposes of, amongst others, providing incentives and helping the Group in retaining its existing employees. Since the adoption of the Share Award Scheme and up to 31 March 2021, none of the issued Shares purchased has been distributed under the Share Award Scheme.

Depreciation and amortisation

During the Year, (1) depreciation and amortisation of property, plant and equipment, investment properties and intangible assets were approximately HK\$67.1 million, equivalent to 7.0% of the Group’s revenue (2020: approximately HK\$103.0 million, equivalent to 7.5% of the Group’s revenue); and (2) depreciation of right-of-use assets were approximately HK\$198.3 million, equivalent to 20.7% of the Group’s revenue (2020: approximately HK\$206.1 million, equivalent to 14.9% of the Group’s revenue). The aggregate amount of depreciation and amortisation was approximately HK\$265.4 million, equivalent to 27.7% of the Group’s revenue (2020: approximately HK\$309.1 million, equivalent to 22.4% of the Group’s revenue). The increase in the ratio of depreciation and amortisation to the Group’s revenue was mainly due to a decrease in revenue during the Year.

Property rentals and related expenses

During the Year, the Group (i) negotiated lease adjustments with landlords closely and obtained rental concession of approximately HK\$22.3 million which was fully recognised in the consolidated profit or loss in accordance with the Amendment to Hong Kong Financial Reporting Standard 16, *Covid-19-Related Rent Concessions*; and (ii) adjusted its restaurant networks. Accordingly, the property rental and related expenses decreased by 75.5% from approximately HK\$89.6 million for the previous year to approximately HK\$21.9 million for the Year.

Other operating expenses

Other operating expenses decreased by approximately 33.0%, from approximately HK\$286.9 million for the previous year to approximately HK\$192.2 million for the Year, representing approximately 20.1% of the Group’s revenue for the Year. Given the possible adverse impact of the Pandemic on the performance of the Group’s restaurants, the management conducted a review of the Group’s right-of-use assets and property, plant and equipment. Accordingly, impairment losses of right-of-use assets and property, plant and equipment of approximately HK\$16.3 million and HK\$14.9 million were recognised respectively during the Year (2020: HK\$112.5 million in aggregate). Besides, as some restaurants had ceased operations during the Year, there was a non-recurring write-off of property, plant and equipment of approximately HK\$5.8 million (2020: HK\$7.1 million, together with a written down of on inventories of HK\$1.0 million and impairment of goodwill of HK\$4.4 million). Excluding the above-mentioned impairments and write-off, the other operating expenses for the Year were approximately HK\$155.2 million, decreased by approximately 4.1% as compared with the previous year, representing approximately 16.2% of the Group’s revenue (2020: approximately 11.7%). Such increase in the ratio of other operating expenses to the Group’s revenue were mainly due to a decrease in revenue during the Year.

MANAGEMENT DISCUSSION AND ANALYSIS

	For the year ended 31 March	
	2021 HK\$'000	2020 HK\$'000

Write-off of inventories	–	980
Other operating related expenses	53,110	40,456
	192,247	286,916

Finance cost

Finance cost amounted to HK\$25.1 million for the Year, representing a decrease of HK\$2.9 million from the previous year, which was mainly the interest on lease liabilities of approximately HK\$24.2 million.

Share of profits from joint ventures

The share of profits from joint ventures amounted to approximately HK\$0.8 million for the Year, representing a decrease of approximately HK\$22.4 million. The decrease was primarily due to the decrease in contributions from joint ventures caused by the impact of the Pandemic on the performance of restaurants operated by certain joint ventures during the Year.

Loss for the year

Primarily dragged by the decrease in revenue from operations due to the continuously challenging business environment faced by the Group and the fact that non-cash items such as impairment and depreciation of right-of-use assets were recognised in the Group's results for the Year, the Group recorded loss after tax of approximately HK\$126.1 million (2020: approximately HK\$319.7 million). Excluding the non-recurring Government subsidies of approximately HK\$55.4 million and write-off and impairment losses of approximately HK\$37.0 million (2020: approximately HK\$125.0 million), the Group incurred a loss after tax of approximately HK\$144.5 million for the Year (2020: approximately HK\$194.7 million).

Liquidity, financial resources and capital structure

The Group financed its business principally with internally generated cash flows and the proceeds received from the initial public offering of the Company's shares in issue for listing on the Main Board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") on 26 November 2012 (the "Listing"). Taking into account the financial resources available to the Group, including internally generated funds and available banking facilities, the Group has sufficient working capital to meet its present requirements.

MANAGEMENT DISCUSSION AND ANALYSIS

As at 31 March 2021, the Group had cash and cash equivalents amounting to approximately HK\$167.2 million, representing a decrease of approximately HK\$70.2 million from approximately HK\$237.4 million as at 31 March 2020. Most of the Group's bank deposits and cash were denominated in Hong Kong dollars, Renminbi and Singapore dollars.

As at 31 March 2021, the Group's total current assets and current liabilities were approximately HK\$307.2 million (2020: approximately HK\$354.0 million) and approximately HK\$432.7 million (2020: approximately HK\$434.6 million), respectively, while the current ratio calculated by dividing the total current assets over the total current liabilities was approximately 0.7 time (2020: approximately 0.8 time).

Details of the interest-bearing bank borrowings are set out in note 24 to the consolidated financial statements. The interest-bearing bank borrowings were denominated in Hong Kong dollars.

As at 31 March 2021, the Group's gearing ratio, calculated by the interest-bearing bank borrowings divided by the equity attributable to equity shareholders of the Company and then multiplied by 100%, was approximately 9.3% (2020: approximately 8.4%).

Material acquisitions and disposals

The Group had no material acquisitions or disposals of subsidiaries, associates or joint ventures during the Year.

Future plans for material investments or capital assets

Save as disclosed elsewhere in this annual report, the Group did not have any plan for material investments or capital assets as at 31 March 2021.

Foreign currency risk

The Group's sales and purchases for the Year were mostly denominated in Hong Kong dollars and Renminbi. The Renminbi is not a freely convertible currency. Future exchange rates of the Renminbi could vary significantly from the current or historical exchange rates as a result of the capital controls that could be imposed by the PRC government. The exchange rates may also be affected by economic developments and political changes both domestically and internationally, and the demand and supply of the Renminbi. The appreciation or devaluation of the Renminbi against the Hong Kong dollar may have an impact on the Group's results. The Group will continue to take proactive measures and closely monitor its exposure to any currency movements.

Contingent liabilities

As at 31 March 2021, the Group had contingent liabilities of approximately HK\$5.8 million (2020: approximately HK\$1.5 million) in respect of bank guarantees given in favour of landlords in lieu of rental deposits.

Charge on assets

Detail of the charge of assets are set out in the note 24 to the consolidated financial statements.

Training and continuing development

During the Year, comprehensive training programmes and development initiatives pertaining to operational and occupational safety as well as customer services were provided to relevant employees in order to enhance the quality of services expected from customer-facing staff as well as to ensure the effective implementation of the Group's business ethos. Seminars on Directors' duties and responsibilities under statutory and regulatory requirements as well as an update on the amendments to the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules") was delivered by the legal adviser of the Company to the Directors and the Senior Management in March 2021.

MANAGEMENT DISCUSSION AND ANALYSIS

PROSPECTS AND OUTLOOK

Customer satisfaction

In the foreseeable future, the Group will continue to implement its core strategy of prioritising its customers' dining experience by maintaining stringent food safety and diversifying the menu to suit seasonal changes in order to attract a broader base of customers whilst ensuring that its signature dishes will continue to be served at the highest quality. The Group has always endeavoured to provide high-quality food for its customers in a comfortable and hygienic Cha Chaan Teng environment. Furthermore, we trust that the Group will strive to build customer satisfaction by diversifying the Group's business under new brand names.

Corporate social responsibility

The Group is committed to adhering to its core corporate values and social responsibilities. The Group has been strongly encouraging all its employees to partake in charitable activities organised by and associated with the Group such as the Community Chest's fundraising activities. The Group has also promoted environmental protection initiatives, bolstered its green procurement and energy saving policies, and provided customers with friendly reminders to reduce food waste. The Group continues to take an unwaveringly proactive role in giving back to the community

Environmental, social and governance ("ESG") performance

The Group continually reviews its ESG efforts, corporate governance and risk management practices with the aim of creating and delivering sustainable value to all its key stakeholders. The Group has been exploring more efficient opportunities to reduce the consumption of resources in order to reduce its impact on the environment. Further, the Group has conducted a series of surveys by way of questionnaires with certain key stakeholders covering topics from the Group's environmental and social policies to governance issues. The surveys' results will serve as a solid foundation for the Group's upcoming ESG report. For more information regarding the Group's ESG performance for the Year, please refer to the Group's forthcoming ESG report which can be viewed or downloaded from the Company's official website no later than three months after the publication of this annual report.

Outlook

Looking forward, the Group plans to implement the following measures so as to diversify its business scope and income source. The Group will actively broaden its platforms and develop its new brands and explore other new business models with a view to maintaining flexible market responses and coping with the change in consumption manner. Besides, the Group will accelerate its expansion in overseas markets and the Guangdong-Hong Kong-Macao Greater Bay Area, and strengthen marketing efforts to expand its customer base. We hope to consolidate the brand presence of the Group and increase its market share in Hong Kong, Macau and Mainland China. The Group will also make good use of its strategic partnership relationship with Jumbo Group Limited in Singapore, and continue carefully seeking development opportunities in Singapore and other Southeast Asia regions.

Apart from restructuring the restaurants and developing business, the Group will also actively promote takeaway services to further strengthen its food delivery business and will launch marketing promotions to attract more customers so as to mitigating the adverse impact of the social distancing measures. To enhance its efficiency and productivity, the Group is taking decisive measures to protect profit margins by controlling its costs (such as rent and labour costs) as well as reviewing and readjusting its recurrent expenditure.

On 12 May 2020, the Group won the bid for a licence by the Airport Authority to operate the Catering Concession. The Pandemic has caused a sharp decline in the Airport's passenger flow and the Airport Authority has agreed to extend the rent-free fitting out period. The Group will pay attention to the global development of the Pandemic and flight status, and will continue to discuss with the Airport Authority on the grand opening date of the Catering Concession.

Despite a challenging external environment, the Group, with its solid cash flow and strong resources reserve, can choose the most advantageous way to improve operations and seize various attractive business opportunities.

APPRECIATION

The Board would like to express its sincere gratitude to the Group's management and all its staff for their continuous support and contribution. What is more, the Board would also like to take this opportunity to thank all the Shareholders and the Group's investors, customers, business partners and associates for their loyal support and longstanding faith in the prospects of the Group.

BIOGRAPHIES OF DIRECTORS AND SENIOR MANAGEMENT

Executive Directors

Mr. Lee Yuen Hong (李遠康) (“Mr. Lee”), aged 66, is the chairman of the Board (the “**Chairman**”) and an executive Director. CORPORATE GOVERNANCE REPORT

Corporate Governance Practices

The Company is committed to achieving and maintaining a high standard of corporate governance that properly protects and promotes the interest of its shareholders (the **"Shareholders"**) and devotes considerable effort to identifying and formalizing good corporate governance practices. The Company has adopted and adhered to the principles in the Corporate Governance Code (the **"CG Code"**) as set out in Appendix 14 to the Listing Rules. The corporate governance principles of the Company place strong emphasis on an effective board with a high level of integrity, proper internal controls, as well as a high degree of transparency and accountability, which not only maximize the corporate value for the Shareholders but also protect the long-term sustainability of the Group as a whole.

Throughout the Year and up to the date of this annual report, the Company has complied with all the code provisions of the CG Code.

The Board periodically reviews and continues to abide by the Company's corporate governance policies to ensure compliance with the code provisions of the CG Code.

Directors

The Board

The Board, led by the chairman of the Board (the **"Chairman"**), is responsible for the leadership and control of the Company and is vested with the overall management of the Group's business. The Board is collectively responsible for promoting the success of the Company, by making decisions objectively, having regard to the best interests of the Company at all times. The Board has delegated the authority and responsibility for the day-to-day management and operation of the Group to the Senior Management team of the Company. Such responsibilities include implementing the decisions of the Board, directing and co-ordinating day-to-day operations, managing the Group in accordance with the strategies and plans as approved by the Board, formulating and monitoring the operation and production plans and budgets, as well as supervising and monitoring the control systems. In addition, the Board has established Board committees and has delegated various responsibilities to these Board committees as set out in their respective terms of reference.

The Board undertakes responsibility for its decision for all major matters of the Company, including the approval and monitoring of all policy matters, overall strategies and budgets, internal control and risk management systems, material transactions (in particular those that may involve a conflict of interest), financial information, appointment of Directors and other significant financial and operational matters.

With the assistance of the Company's company secretary (the **"Company Secretary"**), the Chairman has sought to ensure that all Directors were properly consulted on all major matters relating to the Company. The Directors are provided with monthly operating information which contains up-to-date performance of the Group and information of the Company. The Directors were sufficiently briefed on issues raised during Board meetings and that all relevant information had been received in a timely manner. To the extent that any of the Directors required independent professional advice, this would be met by the Group, at the Group's expense, upon the Director having made a reasonable request to the Board.

CORPORATE GOVERNANCE REPORT

The Board has maintained the necessary balance of skills and experience appropriate for the business requirements and objectives of the Group and for the exercise of independent judgement. During the Year, the Company had three INEDs and the number of INEDs met the requirements at least one-third of the Board under Rules 3.10(1) and 3.10A of the Listing Rules. In addition, pursuant to Rule 3.10(2) of the Listing Rules, the Board ensured that at least one of the INEDs possessed appropriate professional qualifications, or accounting or related financial management expertise. Mr. Yim is a fellow member of the Association of Chartered Certified Accountants in the United Kingdom and is a member of the Hong Kong Institute of Certified Public Accountants.

The Company has received an annual confirmation in writing from each of the INEDs of their independence pursuant to Rule 3.13 of the Listing Rules. The Board is not aware of any circumstance which would affect the independence and exercise of impartial judgment from the INEDs. As such, the Board notes that all the INEDs are independent.

The biographies of the Directors are set out on pages 12 to 15 of this annual report. Save as disclosed in the section headed "Biographies of Directors and Senior Management" in this annual report, there is no family, financial or business relationship among the Directors.

A full list of the Directors is available on the respective websites of the Company and the Stock Exchange, and is disclosed in all corporate communications issued by the Company from time to time in accordance with the Listing Rules.

Directors' Liabilities Insurance

During the Year and up to the date of this annual report, an appropriate and adequate directors' and officers' liability insurance is in place to protect the Directors from legal action arising from the performance of their duties as a Director. Such insurance coverage is reviewed and renewed on an annual basis. No claims under the insurance policy have been made.

CORPORATE GOVERNANCE REPORT

Appointment, Re-Election and Removal of Directors

In compliance with the Listing Rules, and in accordance with the articles of association of the Company (the “**Articles of Association**”), (i) all NEDs should be appointed for specific terms, (ii) all Directors should be subject to retirement by rotation at least once every three years and are eligible for re-election, and (iii) any Director appointed by the Board to fill a casual vacancy in the Board or as an addition to the existing Board shall hold office only until the next following general meeting of the Company and shall be subject to re-election at such meeting.

Continuous Professional Development

On the first occasion of each Director’s appointment, the Company will arrange a comprehensive, formal and detailed introduction to each Director to ensure that he/she has a proper understanding of the Company’s operations and business and is fully aware of the Director’s responsibilities under statutory and common law, the Listing Rules, other legal and regulatory requirements and the Company’s business and governance policies.

In compliance with code provision A.6.5 of the CG Code, the Company had arranged and funded suitable training for all the Directors to partake in continuous professional development. This was conducted by way of a combination of in-house training, webinars, seminars and other appropriate courses and distribution of relevant reading materials to (i) develop and refresh their knowledge and understanding of the Group and its business; (ii) update their skills and knowledge with respect to the latest development or changes in the relevant commercial, legal and regulatory statutes, the Listing Rules and corporate governance practices; and (iii) enhance their awareness on the responsibilities for a director of a listed corporation. For example, the executive Directors and a majority of the members of the Senior Management attended seminars on the Directors’ duties and responsibilities under statutory and regulatory requirements and an update on the amendments to the Listing Rules delivered by the legal advisor of the Company.

A summary of the training received by the Directors for the Year and up to the date of this annual report is set out below:

Directors’ Securities Transactions

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix 10 to the Listing Rules (the “**Model Code**”) as its own code of conduct governing the Directors’ transactions of the listed securities of the Company.

CORPORATE GOVERNANCE REPORT

Following the specific enquiries made by the Company with each of the Directors, all Directors confirmed that they had complied with the standards as set out in the Model Code for the Year.

Board Committees

The Board has established the Nomination Committee, Remuneration Committee and Audit Committee to oversee particular aspects of the Company's affairs. Each of these Committees has specific written terms of reference setting out its duties and authority. The Committees have sufficient resources to execute their requisite duties and enjoy the support of management. To the extent that any independent professional advice is required, the Committees have access as necessary at the Group's expense.

Nomination Committee

The primary duties of the Nomination Committee are (a) reviewing the structure, size and composition of the Board; (b) assessing the independence of INEDs; (c) identifying suitably qualified candidates to become members of the Board and giving adequate consideration to the Board Diversity Policy (as defined below); and (d) making recommendations to the Board on any proposed change to the Board or selection of individuals nominated for directorships, or on appointment or re-appointment of Directors. The current members of the Nomination Committee are Mr. Goh and Mr. Tang, both being INEDs, and Mr. Lee, an executive Director. Mr. Lee is the chairman of the Nomination Committee.

The Board adopts a board diversity policy which recognises and embraces the benefits of diversity in the composition of the Board (the "**Board Diversity Policy**"). The Board Diversity Policy requires that all Board appointments shall be based on merit and selection of candidates shall be based on a range of diversity factors. The Company believes that a diversity of perspectives can be achieved through a number of factors, including but not limited to knowledge, gender, age, skills, functional expertise, cultural and educational background as well as professional experience and qualifications. In reviewing the Board Diversity Policy, the Company will also take into account of factors based on its own business model and specific needs from time to time as well as the merits and contributions that the selected candidates will bring to the Board.

After considering the nature of the food and catering industry and the characteristics of the Group's business model, the Nomination Committee has opined that the current composition of the Board maintains an appropriate range and reflects the balance of skills, educational background, experience and diversity of perspectives desirable for the effective management of the Company. In addition, a proposal for the appointment of new Director will be considered and reviewed by the Nomination Committee. Candidates to be selected and recommended are experienced and high calibre individuals. All candidates must be able to meet the standards and criteria set out in the Listing Rules and the Company's nomination policy.

The Directors recognise the importance of incorporating elements of good corporate governance in the management structures, internal control and risk management procedures of the Group so as to achieve effective accountability.

The Nomination Committee will continue to identify qualified candidates through merit based selection and candidates will be considered by using objective criteria, with due regard to the benefits of diversity on the Board.

The Nomination Committee will continue to review the Board Diversity Policy from time to time to ensure its continued effectiveness.

Nomination Policy

The Nomination Committee will recommend to the Board for the selection, appointment and re-appointment of a Director including an INED in accordance with the following procedures and process:

- i The Nomination Committee will, giving due consideration to the current composition and size of the Board, develop a list of desirable skills, perspectives and experience at the outset to focus the search effort;

CORPORATE GOVERNANCE REPORT

- ii The Nomination Committee may consult any source it considers appropriate in identifying or selecting suitable candidates, such as referrals from existing Directors, advertising, recommendations from a third party agency firm and proposals from the Shareholders with due consideration given to the criteria which include but are not limited to:
 - (a) Diversity in the aspects of, amongst others, gender, age, cultural and educational background, professional experience, skills, knowledge and length of service;
 - (b) Commitment for responsibilities of the Board in respect of available time and relevant interest (details of the Board Diversity Policy set out above);
 - (c) Qualifications, both academic and professional, including accomplishment and experience in the relevant industries in which the business(es) of the Company and its subsidiaries is/are involved;
 - (d) Independence (for INEDs);
 - (e) Reputation for integrity;
 - (f) Potential contributions that the individual can bring to the Board; and
 - (g) Plan(s) in place for the orderly succession of the Board.
- iii The Nomination Committee may adopt any process it considers appropriate in evaluating the suitability of the candidates, such as interviews, background checks, presentations and third party reference checks;
- iv The Nomination Committee will consider a broad range of candidates who are in and outside of the Board's circle of contacts;
- v Promptly after considering a candidate's suitability for the directorship, the Nomination Committee will hold a meeting and/or by way of written resolutions to, if thought fit, approve the recommendation to the Board for appointment;
- vi The Nomination Committee will provide the relevant information of the selected candidate to the Remuneration Committee for consideration of the remuneration package of such selected candidate;
- vii The Nomination Committee will thereafter make the recommendation to the Board in relation to the proposed appointment, and where a NED is considered, the Remuneration Committee will make the recommendation to the Board on the policy and structure for the remuneration;
- viii The Board may arrange for the selected candidate to be interviewed by the members of the Board, who are not members of the Nomination Committee and the Board will thereafter deliberate and decide the appointment as the case may be; and
- ix All appointment of Directors will be confirmed by the filing of the consent to act as Director of the relevant Director (or any other similar filings requiring the relevant Director to acknowledge or accept the appointment as Director, as the case may be) to be filed with the relevant regulatory authorities, if required.

The terms of reference of the Nomination Committee is available on the respective websites of the Company and the Stock Exchange.

For the Year, the Nomination Committee held one meeting. All members, namely, Mr. Lee (Chairman), Mr. Goh and Mr. Tang attended the meeting.

Risk Management and Internal Control

The Board acknowledges its responsibility for overseeing the Group's risk management and internal control systems and reviewing their effectiveness at least annually. The Audit Committee assists the Board in fulfilling its oversight and corporate governance roles in the Group's financial, operational, compliance, risk management and internal control system. External consultant was engaged to review the group's risk management and internal control systems during the Year.

With recommendations from the external consultant, the Group's risk management framework has been guided by the "Three Lines of Defense" model. The policy formalised by the Group clearly defines the roles and responsibilities of each layers of the structure, including the Board, Audit Committee, Senior Management, department and operation heads as well as internal audit team.

CORPORATE GOVERNANCE REPORT

1st Line of Defense

Department and operation heads, as risk owners, identify, evaluate, mitigate and monitor their own risks.

2nd Line of Defense

Senior Management is responsible to monitor and facilitates the implementation and operations of effective risk management system.

3rd Line of Defense

Internal audit is responsible to provide an independent assessment on the effectiveness of the system.

Risk management process — The Group's risk management approach is a structured mechanism and a continuous process of identifying, evaluating, prioritising, managing and monitoring of the risks. The risks are categorised into strategic risks, operational risks, financial risks and compliance risks. The followings are the key risk management process:

1. Risk Identification — Identify potential risks of key processes at least annually
2. Risk Assessment — Evaluate and prioritise the risks at least annually
3. Risk Response — Establish mitigation plan for risk identified
4. Risk Monitoring — Continue monitor the effectiveness of the risk management system
5. Risk Reporting — Submit management reports on a regular basis
6. Annual Review — Conduct annual review of the effectiveness of the risk management system

The internal audit team is an independent function reporting directly to the Audit Committee. It provides independent, objective, assurance and consulting services on risk management and internal control. The internal audit team has unrestricted access to information that allows it to review all aspects of the Company's risk management, control and governance processes. On a regular basis, it conducts audits on financial, operational and compliance controls, and the risk management functions of the Group. The internal audit department produces an annual internal audit plan for the Audit Committee's approval. The audit plan is prepared based on the risk assessment to ensure that business activities with higher risks are covered. The plan is executed by the external consultant and the internal audit team on a co-sourcing approach. The head of internal audit team reports to the Audit Committee on a regular basis.

The Board, through the Audit Committee, and annual review of the effectiveness of the Group's risk management and internal control systems for the Year. The review covered all material controls, including financial, operational and compliance controls. No significant areas of concern have been identified and the Board considered the systems were effective and adequate.

During the annual review, the Audit Committee has also considered the adequacy of resources, staff qualifications and experience, training programmes and budget of the Company's internal audit, accounting and financial reporting functions.

Inside Information

Policies, procedures and controls for handling and dissemination of inside information has been set out internally to enhance information management of the Group and to ensure the authenticity, accuracy, completeness and timeliness of information disclosed to the public while protecting the legitimate rights and interests of the Company and its Shareholders, creditors and other stakeholders as a whole.

CORPORATE GOVERNANCE REPORT

Dissemination of Inside Information

With respect to the procedures and internal controls for the handling and dissemination of price-sensitive information, the Company acknowledges its responsibilities under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong) and the Listing Rules and the overriding principle that inside information should be announced promptly. The Company has established a policy for the disclosure of inside information (the “**Inside Information Disclosure Policy**”) with close regard to the “Guidelines on Disclosure of Inside Information” issued by the Securities and Futures Commission in Hong Kong.

The Inside Information Disclosure Policy includes, among other things:

- (a) only designated persons are authorised to communicate the Company’s corporate matters with investors, analysts, the media or other members of the investment community;
- (b) Directors or Senior Management shall report to the Group CEO any potential/suspected inside information as soon as practicable so that he can consult (if appropriate) the Board thereafter for determining the nature of developments and, if required, making appropriate disclosure;
- (c) disclosure of inside information must be made in a manner that can provide for equal, timely and effective access by the public to the disclosed inside information; and
- (d) inside information must be kept strictly confidential until a public announcement is made and shall be disseminated in accordance with the requirements of the Listing Rules before it is released via other means.

Delegation by the Board

In general, the Board oversees the Company’s strategic development and determines the objectives, strategies and policies of the Group. The Board also monitors and controls operating and financial performance and sets appropriate policies for risk management in pursuit of the Group’s strategic objectives. The Board delegates the implementation of strategies and day-to-day operation of the Group to the management.

Company Secretary

Mr. Wong Tin King Richard (“**Mr. Richard Wong**”) has been appointed as the Company Secretary with effect from 27 January 2021. Mr. Richard Wong supports the Board by ensuring that reliable and relevant flow of information is maintained amongst members of the Board and that all procedures have been adhered to in accordance with applicable laws, rules, codes and regulations.

Mr. Richard Wong graduated from the Hong Kong Polytechnic University with a bachelor’s degree of arts in accountancy in November 2000 and is a Certified Public Accountant of the Hong Kong Institute of Certified Public Accountants. Communication with Shareholders

Effective Communication

The Board believes the importance of maintaining transparent, timely and effective communication with the Shareholders and investors of the Company. The Board also believes that effective communication with the Company’s investors is critical in establishing investor confidence and attracting new investors. Therefore, the Group is committed to maintaining a high degree of transparency to ensure that the Shareholders and investors of the Company will receive accurate, clear, comprehensive and timely information through the publication of annual reports, interim reports, announcements and circulars. The Company also publishes all corporate communications on its website.

CORPORATE GOVERNANCE REPORT

In respect of each matter to be considered at the AGMs and extraordinary general meetings of the Company (the “EGMs”), including the re-election of Directors, a separate resolution will be proposed by the chairman of the relevant meeting. Voting at AGMs and EGMs is conducted by way of poll in accordance with the Listing Rules. The poll results will be published on the respective websites of the Stock Exchange and the Company after the conclusion of the AGMs and the EGMs. In addition, the Company regularly meets with institutional investors, financial analysts and financial media, and promptly releases information related to any significant progress of the Company, so as to promote the development of the Company through mutual and efficient communication.

The Chairman and members of the Board and chairmen of the various Board committees or their duly appointed delegates have attended the 2020 AGM and will attend the forthcoming AGM to be held on Friday, 27 August 2021 (the “2021 AGM”) to answer questions raised by the Shareholders.

Pursuant to code provision E.1.2 of the CG Code, the Company will invite/has invited representatives of the Independent Auditor to attend the 2021 AGM and the chairman of the Audit, Remuneration and Nomination Committees to attend the forthcoming 2021 AGM to answer Shareholders’ questions regarding the conduct of the audit, the preparation and content of the independent auditor’s report, the accounting policies and auditor’s independence.

Shareholders’ Rights

CORPORATE GOVERNANCE REPORT

3. Procedures for Putting Forward Proposals at Shareholders' Meetings

(i) Proposal for election of a person other than a Director as a Director:

Pursuant to article 85 of the Articles of Association, a Shareholder who wishes to propose a person other than a retiring Director for election to the office of Director at any general meeting should lodge (i) a notice in writing by him/her/it (other than the person to be proposed) of his/her/its intention to propose that person for election as a Director; and (ii) a notice in writing by that person of his/her willingness to be elected, at either (a) the principal place of business of the Company in Hong Kong (presently at Room 1606–1608, 16/F, Riley House, 88 Lei Muk Road, Kwai Chung, New Territories, Hong Kong), or (b) the Hong Kong branch share registrar and transfer office of the Company in Hong Kong at Shops 1712–1716, 17/F, Hopewell Centre, 183 Queen's Road East, Wan Chai, Hong Kong. The period for lodgement of the notices mentioned above will commence no earlier than the day after the despatch of the notice of the general meeting appointed for such election and end no later than seven days prior to the date of such general meeting and the minimum length of the period during which such notices to the Company may be given will be at least seven days.

(ii) Other proposals:

If a Shareholder wishes to make other proposals (the **"Proposal(s)"**) at a general meeting, he/she/it may lodge a written request, duly signed, at the principal place of business of the Company in Hong Kong presently at Room 1606–1608, 16/F, Riley House, 88 Lei Muk Road, Kwai Chung, New Territories, Hong Kong marked for the attention of the Company Secretary.

The identity of the Shareholder and his/her/its request will be verified with the Company's branch share registrar in Hong Kong and upon confirmation by the branch share registrar that the request is proper and in order, and is made by a Shareholder, the Board will in its sole discretion decide whether the Proposal(s) may be included in the agenda for the general meeting to be set out in the notice of meeting.

The notice period to be given to all the Shareholders for consideration of the Proposal(s) made by the Shareholders concerned at the general meeting varies according to the nature of the Proposal as follows:

- (1) Notice of not less than 21 clear days and not less than 20 clear business days in writing if the Proposal(s) require(s) approval in an AGM.
- (2) Notice of not less than 21 clear days and not less than 10 clear business days in writing if the Proposal(s) require(s) approval by way of a special resolution in an EGM.
- (3) Notice of not less than 14 clear days and not less than 10 clear business days in writing if the Proposal(s) require(s) approval by way of an ordinary resolution in an EGM.

Dividend Policy

The Company has adopted a dividend policy (**"Dividend Policy"**), pursuant to which the Company may declare and distribute dividends to the Shareholders.

The payment and the amount of any dividends will be at the discretion of the Directors and will depend upon the Group's future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions and other factors which the Directors deem relevant. As regards the subsidiaries incorporated in the People's Republic of China (the **"PRC"** or **"Mainland China"**), the PRC laws require that dividends be paid only out of the net profit calculated according to the PRC accounting principles which differ from generally accepted accounting principles in other jurisdictions, including Hong Kong Financial Reporting Standards. The PRC laws also require foreign-invested enterprises, such as the subsidiaries in Mainland China, to set aside part of their net profit as statutory reserves. These statutory reserves are not available for distribution as cash dividends.

CORPORATE GOVERNANCE REPORT

Subject to the factors described above, the Board intend to recommend at the AGM that dividends of not less than 30% of the net profit for each financial year be recommended for payment as dividend. Unless the Board determines otherwise, cash dividends on the shares of the Company, if any, will be paid in Hong Kong dollars. Other distributions, if any, will be paid to the Shareholders by any means which the Directors consider legal, fair and practicable.

The Dividend Policy will be reviewed from time to time and there is no assurance that a dividend will be proposed or declared in any specific periods.

Constitutional Documents

Pursuant to a special resolution of the Shareholders passed on 5 November 2012, the amended and restated memorandum and articles of association of the Company (the "**M&A**") were adopted with effect from the date of the Listing. During the Year, there was no change in the M&A.

The M&A are available on the respective websites of the Company and the Stock Exchange.

REPORT OF DIRECTORS

The directors of the Company (the “**Directors**”) present this report together with the audited consolidated financial statements of the Company and its subsidiaries (the “**Group**”) for the Year.

Fair Review of Business

A fair review of the business of the Group together with a discussion and analysis of the Group’s performance during the Year, the material factors underlying its financial performance as well as the Group’s future business development are set forth in the “Chairman’s Statement” and the “Management Discussion and Analysis” sections of this annual report. An analysis of the Group’s performance during the Year using financial key performance indicators is provided in the “Five-Year Financial Summary” of this annual report. The information relating to the Group’s food quality and safety, customers, suppliers, employees, community involvement and environmental protection will be set out in the “Environmental, Social and Governance Report” which can be viewed or downloaded from the Company’s official website no later than three months after the publication of this annual report.

Principal Risks and Uncertainties

The catering industry has been experiencing a very hard time since the second half of 2019. People were reluctant to dine out and travelers were deterred to come to Hong Kong, in particular, facing the outbreak of the Pandemic. Along with the ban on public gatherings of more than the specified number of people and restriction on customers at catering businesses, the number of customers visiting our restaurants further declines. The Group’s performance has inevitably been affected. It is foreseeable that the coming years will be rather challenging to the whole world until the Pandemic is ended.

Principal Activities

The principal activity of the Company is investment holding. Its subsidiaries are principally engaged in restaurant operation and the sale of food. Details of the principal activities of the Company’s major subsidiaries are set out in note 1 to the consolidated financial statements.

The listing of and the dealing in the issued ordinary shares of the Company (the “**Shares**”) on The Stock Exchange commenced on 26 November 2012 (the “**Listing Date**”).

Compliance with the Relevant Laws and Regulations

The Group has in place compliance and risk management policies and procedures, and members of the Senior Management are delegated with the continuing obligation to monitor adherence to and compliance with all significant legal and regulatory requirements by the Group.

In promoting food safety, the Group emphasizes active and transparent communications among all stakeholders. The Group has observed strict compliance with the applicable laws and regulations and implemented a comprehensive safety management system for the centralised kitchens of the Group, with an objective to continuously improving the Group’s food quality and hygiene standards. Such standards align with international food standards.

As far as the board of Directors (the “**Board**”) is aware, the Group has complied with the relevant laws and regulations that may cause a significant impact on the business and operation of the Group in the event of a material breach or non-compliance. During the Year and up to the date of this annual report, there was no material breach or non-compliance with the applicable laws and regulations by the Group.

Relationship with Suppliers, Customers and Other Stakeholders

The Group understands the importance of maintaining a good relationship with its suppliers, customers and other stakeholders in order to meet its immediate and long-term goals. During the Year, there was no material or significant dispute between the Group and its suppliers, customers and other stakeholders.

REPORT OF DIRECTORS

Financial Results

The results of the Group for the Year are set out in the consolidated statements of profit or loss and the consolidated statement of profit or loss and other comprehensive income on pages 51 and 52 of this annual report respectively. The financial position of the Group as at 31 March 2021 is set out in the consolidated statement of financial position on pages 53 and 54 of this annual report. Please also refer to the accompanying notes to the consolidated financial statements.

Cash Flow Position

The cash flow position of the Group for the Year is set out and analysed in the consolidated statement of cash flows on pages 56 and 57 of this annual report.

Dividends

The Board has resolved not to recommend the payment of a final dividend for the Year (2020: Nil).

The Board is not aware of any Shareholders who have waived or agreed to waive any dividends.

Closure of Register of Members

The Register of Members will be closed from Monday, 23 August 2021 to Friday, 27 August 2021 (both days inclusive), during which period no transfer of Shares will be registered, for ascertaining Shareholders' entitlement to attend and vote at the forthcoming AGM which will be held on Friday, 27 August 2021. In order to qualify for attending and voting at the forthcoming AGM, non-registered Shareholders must lodge all duly completed transfer forms accompanied by the relevant share certificates with the Company's Hong Kong branch share registrar, Computershare Hong Kong Investor Services Limited (the "**Hong Kong Branch Share Registrar**") for registration no later than 4:30 p.m. on Friday, 20 August 2021. The address of the Hong Kong Branch Share Registrar is Shops 1712–1716, 17/F, Hopewell Centre, 183 Queen's Road East, Wan Chai, Hong Kong.

Five-Year Financial Summary

A summary of the results, assets and liabilities of the Group for the past five financial years is set out on page 120 of this annual report.

Distributable Reserves

As at 31 March 2021, the Company's reserves available for distribution, calculated in accordance with the Companies Law, Cap 22 of the Cayman Islands, amounted to HK\$457,530,000 (2020: HK\$457,839,000). The amount of HK\$457,530,000 (2020: HK\$457,839,000) includes the Company's share premium, contributed surplus and retained profits, which may be distributable, provided that immediately following the date on which the dividend is proposed to be distributed, if any, the Company will be in a position to pay off its debts as and when they fall due in the ordinary course of business.

Reserves

Movements in the reserves of the Group during the Year are set out in the consolidated statement of changes in equity on page 55 of this annual report.

Property, Plant and Equipment

The movements of property, plant and equipment of the Group for the Year are set out in note 13 to the consolidated financial statements.

Share Capital

Details of the Company's share capital as at 31 March 2021 are set out in note 26 to the consolidated financial statements.

REPORT OF DIRECTORS

Share Option Schemes

Share Option Scheme

The Company adopted the Share Option Scheme on 5 November 2012 for the purposes of giving certain Eligible Persons (as defined below) an opportunity to have a personal stake in the Company and motivating them to optimise their future performance and efficiency and/or rewarding them for their past contributions, as well as attracting and retaining, or otherwise maintaining on-going relationships with, such Eligible Persons (as defined below) who are significant to and/or whose contributions are or will be beneficial to the performance, growth or success of the Group. "Eligible Persons" refer to (i) any director, employee, consultant, professional, customer, supplier, agent, partner or adviser of or contractor to the Group or a company in which the Group holds an interest or a subsidiary of such company (an "**Affiliate**"); or (ii) the trustee of any trust, the beneficiary of which or any discretionary trust, the discretionary objects of which include any director, employee, consultant, professional, customer, supplier, agent, partner or adviser of or contractor to the Group or an Affiliate; or (iii) a company beneficially owned by any director, employee, consultant, professional, customer, supplier, agent, partner, adviser of or contractor to the Group or an Affiliate.

The maximum number of Shares which may be issued upon exercise of all options to be granted under the Share Option Scheme is 133,333,400 Shares, representing approximately 9.45% of the Company's issued share capital as at the date of this annual report. The maximum number of Shares issued and to be issued upon the exercise of the options granted under the Share Option Scheme to any one person (including exercised and outstanding options) in any 12-month period shall not exceed 1% of the Shares in issue from time to time (and for an INED or a substantial Shareholder (as defined in the Listing Rules) or their respective associates (as defined in the Listing Rules), 0.1% of the Shares in issue or a value of HK\$5 million). Any further grant of options in excess of the aforesaid limit shall be subject to, among other requirements, the approval from the Shareholders in general meetings.

An option may be exercised in accordance with the terms of the Share Option Scheme at any time during a period as determined by the Board and not exceeding 10 years from the date of the grant. There is no minimum period for which an option must be held before it can be exercised in general. However, at the time of granting any option, the Board may, on a case by case basis, make such grant subject to such conditions, restrictions or limitations including (without limitation) those in relation to the minimum period of the options to be held and/or the performance targets to be achieved as the Board may determine in its absolute discretion. The relevant grantees are required to pay HK\$1.00 as the consideration for the grant and submit a duly signed offer letter to the Company. The exercise price of the options is determined by the Board in its absolute discretion and shall not be less than whichever is the highest of:

- (a) the nominal value of a Share on the date of grant of the relevant option (the "**Grant Date**");
- (b) the closing price of a Share as stated in the Stock Exchange's daily quotation sheet on the Grant Date; and
- (c) the average of the closing prices of a Share as stated in the Stock Exchange's daily quotation sheet for the five business days immediately preceding the Grant Date.

The Share Option Scheme shall be valid and effective for a period of 10 years from the Listing Date, after which no further options will be granted or offered but the provisions of the Share Option Scheme shall remain in force and effect in all other respects. All options granted prior to the termination of the Share Option Scheme and not then exercised shall continue to be valid and exercisable, subject to and in accordance with the terms of the Share Option Scheme.

During the Year, no options were granted, exercised or cancelled, or lapsed under the Share Option Scheme and there were no options outstanding as at 31 March 2021.

Further details of the Share Option Scheme are set out in note 27 to the consolidated financial statements.

Confirmations from the INEDs and the Independent Auditors (Continued)

The independent auditors of the Company (the "**Independent Auditors**") were engaged to report on the Company's continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 (Revised), *Assurance Engagements Other Than Audits or Reviews of Historical Financial Information* and with reference to Practice Note 740, *Auditor's Letter on Continuing Connected Transactions under the Listing Rules* issued by the Hong Kong Institute of Certified Public Accountants. The Independent Auditors have issued their unqualified letter containing their findings and conclusions in respect of the continuing connected transactions made by the Group disclosed above in accordance with rule 14A.56 of the Listing Rules. A copy of the Independent Auditors' letter has been provided by the Company to the Stock Exchange.

Details of the above continuing connected transactions have been disclosed in accordance with Chapter 14A of the Listing Rules and are set out in the announcements of the Company, which are available on the respective websites of the Stock Exchange and the Company.

Confirmations from the Company

The Company has conducted a review of its continuing connected transactions and confirmed that all such transactions had complied with the disclosure requirements in accordance with Chapter 14A of the Listing Rules.

(B) Related Party Transactions

Details of significant related party transactions undertaken in the normal course of business of the Group for the Year are provided under note 33 to the consolidated financial statements. None of these related party transactions constitutes a connected transaction as defined under the Listing Rules that is required to be disclosed, except for those described above in the paragraphs headed "(A) Non-exempt Continuing Connected Transactions Subject to Reporting, Announcement and INEDs' Review Requirements", in respect of which the disclosure requirements in accordance with Chapter 14A of the Listing Rules have been complied with.

REPORT OF DIRECTORS

Use of Proceeds from the Listing

The net proceeds from the Listing (the “**Net Proceeds**”) were approximately HK\$794.4 million (after deducting underwriting fees and related expenses).

The use of the Net Proceeds during the Year and up to 31 March 2021 was approximately as follows:

Use of Net Proceeds	Percentage of Net Proceeds	Net Proceeds (in HK\$ million)	Aggregate amount utilised up to 31 March 2020 (in HK\$ million)	Amount utilised during the Year (in HK\$ million)	Aggregate amount utilised up to 31 March 2021 (in HK\$ million)	Amount remaining as at 31 March 2021 (in HK\$ million)
Opening new restaurants and delivery centres and launch of catering service in Hong Kong	20%	158.9	158.9	–	158.9	–
Opening new restaurants in Mainland China	35%	278.0	278.0	–	278.0	–
Construction of new central kitchen in Hong Kong	10%	79.4	79.4	–	79.4	–
Construction of new central kitchens in Shanghai and Southern China	20%	158.9	108.3	–	108.3	50.6
Upgrading information technology systems	5%	39.8	31.8	1.4	33.2	6.6
Additional working capital and other general corporate purposes	10%	79.4	79.4	–	79.4	–
Total	100%	794.4	735.8	1.4	737.2	57.2

The unused Net Proceeds were mainly intended to be applied to construction of new central kitchens in Shanghai and Southern China (the “**Unmaterialized Plan**”). However, given the unfavourable factors and adverse impact as a result of the Pandemic, the Board will only assess as to whether to proceed with the Unmaterialized Plan when the Pandemic has subsided for a certain period of time. If it is determined by the Board that it would be in the interest of the Company and the Shareholders to shelve the Unmaterialized Plan and reallocate the unused Net Proceeds, the Company will inform the Shareholders by making further announcement.

Changes in Directors’ information

Pursuant to Rule 13.51B(1) of the Listing Rules, the changes in information of the Directors since the date of the Company’s 2020 Annual Report are set out below:

- In view of the difficult operating environment faced by the Group, each of the Directors had voluntarily reduced his/her monthly salary/Director’s fees by 30% during the period from 1 February 2020 to 31 July 2020 and by 15% during the period from 1 August 2020 to 31 March 2021 and up to the date of this annual report.
- Mr. Goh has ceased to be a partner of Ma Tang & Co, a law firm in Hong Kong, and redesignate as a consultant with effect from January 2021.

REPORT OF DIRECTORS

Term Loan Facility of HK\$30,000,000 and Disclosure Pursuant to Rule 13.21 of the Listing Rules

On 28 August 2020, the Company entered into a facility agreement with a licensed bank in Hong Kong (the “**Bank**” and the “**Facility Agreement**”, respectively) whereby the Bank has made available to Tsui Wah Efford Management Limited (“**TWEML**”), a wholly-owned subsidiary of the Company, a term loan facility (the “**Facility**”) for 36 months in the principal amount of HK\$30 million.

Under the terms of the Facility Agreement, TWEML has also executed a letter of undertaking in favour of the Bank (the “**Letter of Undertaking**”). Pursuant to the Letter of Undertaking, among others, it would be an event of default of the Facility Agreement if Mr. Lee, the Chairman and an executive Director, ceases to be (i) the Chairman; and (ii) a controlling Shareholder holding at least 30% of voting power at general meetings of the Company (the “**Event of Default**”).

If an Event of Default has occurred, the Bank may by notice to TWEML declare that (i) the advances under the Facility be cancelled; and/or (ii) all amounts outstanding under the Facility and all interest, fees and commissions shall immediately become due and payable.

As at 31 March 2021, approximately HK\$2,430,000 was utilised by the Group under the Facility.

Save as disclosed above, there were no other circumstances which would give rise to a disclosure obligation of the Company under Rule 13.21 of the Listing Rules for the Year.

Audit Committee and Review of Financial Statements

The Audit Committee was established on 5 November 2012 with specific written terms of reference (the “**TORs**”) in compliance with Rule 3.22 of the Listing Rules and code provision C.3 of the CG Code. Such written TORs were revised on 31 March 2016 and 1 January 2019 to conform with the requirements under the Listing Rules and the CG Code. It is responsible for making recommendations to the Board on the appointment, re-appointment and removal of the external auditors, and approving the remuneration and terms of engagement of the external auditors, and any issues regarding the resignation or dismissal of the auditor.

The Audit Committee also monitors the integrity of financial statements, annual reports and accounts, interim reports and quarterly reports (if prepared for publication), and reviews material financial reporting judgments therein, as well as reviews the financing control, internal control and risk management systems. The Audit Committee has reviewed the accounting principles and practices adopted by the Group with Senior Management and discussed the auditing, internal control and financial reporting matters, including the review of the draft audited consolidated financial statements of the Group for the Year. The consolidated financial statements of the Group for the Year have been audited by the Independent Auditors.

Corporate Governance

The principal corporate governance practices as adopted by the Company are set out in the “Corporate Governance Report” on pages 16 to 29 of this annual report.

Relief of Taxation

The Company is not aware of any relief from taxation available to the Shareholders by reason of their holding of the Shares.

REPORT OF DIRECTORS

Independent Auditors

On 28 August 2020, Ernst & Young ("**EY**") retired from being the Independent Auditor at the close of the 2020 AGM due to EY had not offered themselves for re-election at the 2020 AGM. There was no disagreement between EY and the Group, and there were no other matters in respect of the retirement of EY that need to be brought to the attention of the Shareholders.

KPMG, the new Independent Auditor, was appointed at the 2020 AGM to fill the vacancy following the retirement of EY.

Save as disclosed above, there had been no change in auditors of the Company in any of the preceding three years.

KPMG will retire at the conclusion of the forthcoming AGM and being eligible, offer themselves for re-appointment. A resolution will be submitted to the forthcoming AGM to be held on Friday, 27 August 2021 to seek Shareholders' approval on the re-appointment of KPMG as the Independent Auditors until the conclusion of the next AGM and to authorise the Board to fix their remuneration.

Event(s) after the Year

On 8 April 2021, Success Path (a company owned as to 40% by Mr. Lee, the chairman and executive Director) as landlord and Ever Million (a wholly-owned subsidiary of the Company) as tenant entered into a new lease agreement for a further term of one year from 18 April 2021 to 17 April 2022 with an annual rent of HK\$2,160,000.

Save as disclosed above, no material events occurred after the end of the Year and up to the date of this annual report.

INDEPENDENT AUDITOR'S REPORT

To the shareholders of Tsui Wah Holdings Limited
(Incorporated in the Cayman Islands with limited liability)

Opinion

We have audited the consolidated financial statements of Tsui Wah Holdings Limited and its subsidiaries ("**the Group**") set out on pages 51 to 118, which comprise the consolidated statement of financial position as at 31 March 2021, the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 March 2021 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("**HKFRSs**") issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("**HKSAs**") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants ("**the Code**") together with any ethical requirements that are relevant to our audit of the consolidated financial statements in the Cayman Islands, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matter

Key audit matter is the matter that, in our professional judgement, was of most significance in our audit of the consolidated financial statements of the current period. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

The Key Audit Matter	How the matter was addressed in our audit
<p>Local economic conditions and the level of competition from other similar restaurants impact the performance of the Group's restaurants.</p> <p>Therefore, there is a risk that the values of property, plant and equipment and right-of-use assets in certain restaurants may not be recoverable in full through the future cash flows to be generated from the operations of such restaurants or from disposal of related property, plant and equipment and right-of-use assets.</p> <p>Management reviews the performance of individual restaurants at the end of each reporting period to identify if any restaurant displays negative performance indicators which could indicate impairment. Where indicators of impairment are identified, the recoverable amount of the property, plant and equipment and right-of-use assets in these restaurants is determined by management on a restaurant-by-restaurant basis based on the higher of fair value less costs of disposal and value-in-use calculation of the relevant restaurant.</p> <p>Based on the value-in-use calculation, the Group recognised an impairment loss of HK\$31,215,000 for the year ended 31 March 2021.</p> <p>The value-in-use model used to assess the risk of impairment is based on a number of assumptions, including estimations of future revenue, food cost inflation, rental increments, staff cost inflation and the discount rate applied.</p> <p>We identified assessing impairment of property, plant and equipment and right-of-use assets as a key audit matter because of the significance of property, plant and equipment and right-of-use assets to the consolidated financial statements and because of the significant management judgement and estimation required, which can be subjective.</p>	<p>Our audit procedures to assess impairment of property, plant and equipment and right-of-use assets included the following:</p> <ul style="list-style-type: none">• understanding and evaluating the design and implementation of key internal controls over the impairment assessment;• evaluating management's identification of impairment indicators with reference to the requirements of the prevailing accounting standards;• with the assistance of our internal valuation specialists, assessing the methodology adopted by management in its preparation of the discounted cash flow forecasts with reference to the requirements of the prevailing accounting standards;• comparing the actual performance and results of selected restaurants for the current year with the key assumptions and forecasts adopted by management in the discounted cash flow forecasts for the prior year to assess the effectiveness of management's forecasting process, making enquiries of management as to the reasons for any significant variations identified and considering if there was any indicator of management bias;• evaluating the key assumptions adopted by management in the discounted cash flow forecasts by referring to industry information, recent financial performance of the catering operations and management's budgets and plans for the operations in the next financial year and beyond;

INDEPENDENT AUDITOR'S REPORT

Key audit matter *(Continued)*

Assessing potential impairment of property, plant and equipment and right-of-use assets

Refer to accounting policies at note 3.1, and notes 13 and 15 to the consolidated financial statements

The Key Audit Matter

How the matter was addressed in our audit

- with the assistance of our internal valuation specialists, assessing the discount rates used in the cash flow forecasts by benchmarking against other similar listed catering groups;
- obtaining sensitivity analyses of the discount rates and revenue growth rates and considering the resulting impact on the impairment charge for the year and whether there were any indicators of management bias; and
- assessing the reasonableness of the disclosures in the consolidated financial statements with reference to the requirements of the prevailing accounting standards.

Information other than the consolidated financial statements and auditor's report thereon

The directors are responsible for the other information. The other information comprises all the information included in the annual report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT

Responsibilities of the directors for the consolidated financial statements

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

INDEPENDENT AUDITOR'S REPORT

Auditor's responsibilities for the audit of the consolidated financial statements *(Continued)*

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Chan Tak Kei.

NOTES TO FINANCIAL STATEMENTS

31 March 2021

2.1 Basis of preparation

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention. These financial statements are presented in Hong Kong dollars (“HK\$”) and all values are rounded to the nearest thousand except when otherwise indicated.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the “Group”) for the year ended 31 March 2021. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group’s voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date on which such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

NOTES TO FINANCIAL STATEMENTS

31 March 2021

2.1 Basis of preparation *(Continued)*

Basis of consolidation *(Continued)*

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.2 Changes in accounting policies and disclosures

The Group has applied the following amendments to HKFRSs issued by the HKICPA to these financial statements for the current accounting period:

- Amendments to HKFRS 3, *Definition of a Business*
- Amendment to HKFRS 16, *COVID-19-Related Rent Concessions*

Other than the amendment to HKFRS 16, the Group has not applied any new standard or interpretation that is not yet effective for the current accounting period. Impacts of the adoption of the amended HKFRSs are discussed below:

Amendments to HKFRS 3, *Definition of a Business*

The amendments clarify the definition of a business and provide further guidance on how to determine whether a transaction represents a business combination. In addition, the amendments introduce an optional "concentration test" that permits a simplified assessment of whether an acquired set of activities and assets is an asset rather than business acquisition, when substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets.

The amendments to HKFRS 3 do not have any material impact on the Group's financial statements.

Amendment to HKFRS 16, *COVID-19-Related Rent Concessions*

The amendment provides a practical expedient that allows a lessee to by-pass the need to evaluate whether certain qualifying rent concessions occurring as a direct consequence of the COVID-19 pandemic ("COVID-19-related rent concessions") are lease modifications and, instead, account for those rent concessions as if they were not lease modifications.

The Group has elected to early adopt the amendments and applies the practical expedient to all qualifying COVID-19-related rent concessions granted to the Group during the Year. Consequently, rent concessions received have been accounted for as negative variable lease payments recognised in profit or loss in the period in which the event or condition that triggers those payments occurred (see Note 15(iii)).

NOTES TO FINANCIAL STATEMENTS

31 March 2021

2.2 Changes in accounting policies and disclosures (Continued)

Amendment to HKFRS 16, COVID-19 Related Rent Concessions (Continued)

The impact on the opening balance of equity at 1 April 2020 is summarised in the following table:

	Carrying amount at 31 March 2020 \$'000	Cumulative effect of initially applying the amendment \$'000	Carrying amount at 1 April 2020 \$'000
Line items in the consolidated statement of financial position impacted by the adoption of Amendment to HKFRS 16:			
Right-of-use assets	719,842	9,633	729,475
Leases liabilities	(708,233)	(4,036)	(712,269)
Net assets	703,052	5,597	708,649

2.3 Possible impact of amendments, new standards and interpretations issued but not yet effective for the Year

Up to the date of issue of these financial statements, the HKICPA has issued a number of amendments, and a new standard, HKFRS 17, *Insurance contracts*, which are not yet effective for the year ended 31 March 2021 and which have not been adopted in these financial statements. These developments include the following which may be relevant to the Group.

	Effective for accounting periods beginning on or after
Amendments to HKFRS 3, Reference to the Conceptual Framework	1 January 2022
Amendments to HKAS 16, Property, Plant and Equipment: Proceeds before Intended Use	1 January 2022
Amendments to HKAS 37, Onerous Contracts — Cost of Fulfilling a Contract	1 January 2022
Annual Improvements to HKFRSs 2018-2020 Cycle	1 January 2022

The Group is in the process of making an assessment of what the impact of these developments is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the consolidated financial statements.

NOTES TO FINANCIAL STATEMENTS

31 March 2021

3.1 Summary of significant accounting policies

Investments in joint ventures

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The Group's investments in joint ventures are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses.

The Group's share of the post-acquisition results and other comprehensive income of joint ventures is included in the consolidated statement of profit or loss and consolidated statement of profit or loss and other comprehensive income, respectively. In addition, when there has been a change recognised directly in the equity of the joint venture, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its joint ventures are eliminated to the extent of the Group's investments in the joint ventures, except where unrealised losses provide evidence of an impairment of the asset transferred. Goodwill arising from the acquisition of joint ventures is included as part of the Group's investments in joint ventures.

If an investment in a joint venture becomes an investment in an associate or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, upon loss of joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the joint venture upon loss of joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

NOTES TO FINANCIAL STATEMENTS

31 March 2021

3.1 Summary of significant accounting policies *(Continued)*

Business combinations and goodwill *(Continued)*

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 March. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (or group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

Fair value measurement

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

3.1 Summary of significant accounting policies *(Continued)*

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories and financial assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises.

Related parties

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

- (b) the party is an entity where any of the following conditions applies:
 - (i) the entity and the Group are members of the same group;
 - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
 - (iii) the entity and the Group are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group; and the sponsoring employers of the post-employment benefit plan;

Related parties *(Continued)*

- (b) the party is an entity where any of the following conditions applies: *(Continued)*
- (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. The cost of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Buildings	2% to 3.3%
Leasehold improvements	12.5% to 50%
Furniture and fixtures	20% to 30%
Catering and other equipment	10% to 30%
Motor vehicles	25% to 30%

Where parts of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

Property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress represents property, plant and equipment under construction, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction and capitalised borrowing costs on related borrowed funds during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

NOTES TO FINANCIAL STATEMENTS

3.1 Summary of significant accounting policies *(Continued)*

Investment properties

Investment properties are interests in land and buildings (including the leasehold property held as right-of-use assets which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and any impairment losses.

The Group's investment property is rented out under an operating lease. The above investment property is depreciated on a straight-line basis at the following rates per annum:

Leasehold land	Over the lease term
Buildings	2% to 3.3%

Any gains or losses on the retirement or disposal of investment properties are recognised in the statement of profit or loss in the year of the retirement or disposal.

Intangible assets (other than goodwill)

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Computer software

Computer software is stated at cost less accumulated amortisation and any impairment losses and is amortised on the straight-line basis over its estimated useful life of five years.

Trademark

Purchased trademark is stated at cost less any impairment losses and is amortised on the straight-line basis over its estimated useful life of 8.5 years.

NOTES TO FINANCIAL STATEMENTS

31 March 2021

3.1 Summary of significant accounting policies *(Continued)*

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) *Right-of-use assets*

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Leasehold land	over the lease terms
Buildings	over the lease terms
Motor vehicles	over the lease terms

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

(b) *Lease liabilities*

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset. The only exceptions are any rent concessions which arose as a direct consequence of the COVID-19 pandemic and which satisfied the conditions set out in paragraph 46B of HKFRS 16 *Leases*. In such cases, the Group took advantage of the practical expedient set out in paragraph 46A of HKFRS 16 and recognised the change in consideration as if it were not a lease modification.

NOTES TO FINANCIAL STATEMENTS

31 March 2021

3.1 Summary of significant accounting policies *(Continued)*

Leases *(Continued)*

Group as a lessee *(Continued)*

(c) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of buildings (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases of office equipment and laptop computers that are considered to be of low value. Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases that transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, are accounted for as finance leases.

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

3.1 Summary of significant accounting policies *(Continued)*

Investments and other financial assets *(Continued)*

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Impairment of financial assets

The Group recognises an allowance for expected credit losses ("**ECLs**") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

NOTES TO FINANCIAL STATEMENTS

31 March 2021

3.1 Summary of significant accounting policies *(Continued)*

Impairment of financial assets *(Continued)*

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables and contract assets which apply the simplified approach as detailed below.

- | | | |
|---------|---|--|
| Stage 1 | – | Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs |
| Stage 2 | – | Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs |
| Stage 3 | – | Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs |

Simplified approach

For trade receivables and contract assets that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For trade receivables, the Group chooses as its accounting policy to adopt the simplified approach in calculating ECLs with policies as described above.

3.1 Summary of significant accounting policies *(Continued)*

Financial liabilities at amortised cost (loans and borrowings)

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and in the case of loans and borrowings, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, certain accruals, finance lease payables, interest-bearing bank borrowings and lease liabilities.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Loans and borrowings

After initial recognition, interest-bearing bank borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the first-in, first-out basis. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

3.1 Summary of significant accounting policies *(Continued)*

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, which are not restricted as to use.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries and joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

NOTES TO FINANCIAL STATEMENTS

31 March 2021

3.1 Summary of significant accounting policies *(Continued)*

Income tax *(Continued)*

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries and joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, which it is intended to compensate, are expensed.

Non-monetary government grants are recognised at fair value when there is reasonable assurance that the grant will be received and all attaching conditions will be complied with.

Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group with a significant financing benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

Revenue from restaurant operation is recognised at the point in time when the catering services to the customers are completed.

Revenue from the sale of food is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the food.

Rental from other sources

Rental income is recognised on a time proportion basis over the lease terms.

Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

3.1 Summary of significant accounting policies *(Continued)*

Share-based payments

The Company operates share option schemes for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments ("**equity-settled transactions**").

The cost of equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined using the Black-Scholes option pricing model, further details of which are given in note 27 to the financial statements.

The cost of equity-settled transactions is recognised in employee benefit expense, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the statement of profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expense is recognised. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share.

Shares held for the Share Award Scheme

Where shares are acquired by the Share Award Scheme from the market or by electing for scrip in lieu of cash dividends, the total consideration of shares acquired from the market (including any directly attributable incremental costs) or under the scrip dividend scheme is presented as shares held for the Share Award Scheme and deducted from total equity.

Upon vesting, the related costs of the vested awarded shares purchased from the market and shares acquired under the scrip dividend scheme (dividend shares) are credited to shares held for the Share Award Scheme, with a corresponding decrease in the employee share-based compensation reserve for awarded shares and a decrease in retained earnings for dividend shares.

Other employee benefits

Retirement benefit schemes

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the “MPF Scheme”) under the Mandatory Provident Fund Schemes Ordinance for all of its Hong Kong employees. Contributions are made based on a percentage of the employees’ basic salaries and are charged to the statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group’s employer contributions vest fully with the employees when contributed into the MPF Scheme.

The employees of the Group’s subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. The subsidiaries operating in Mainland China are required to contribute a certain percentage of their payroll costs to the central pension scheme. The contributions are charged to the statement of profit or loss as they become payable in accordance with the rules of the central pension scheme.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Dividends

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting. Proposed final dividend is disclosed in the notes to the financial statements.

Interim dividends are simultaneously proposed and declared, because the Company’s memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

Foreign currencies

These financial statements are presented in Hong Kong dollars, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of each reporting period. Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the dates when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation differences on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

The functional currencies of certain overseas subsidiaries and joint ventures are currencies other than the Hong Kong dollar. As at the end of the reporting period, the assets and liabilities of these entities are translated into Hong Kong dollars at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into Hong Kong dollars at the weighted average exchange rates for the year. The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the statement of profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into Hong Kong dollars at the exchange rates prevailing at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into Hong Kong dollars at the weighted average exchange rates for the year.

3.2 Significant accounting judgements and estimates

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Impairment test of property, plant and equipment and right-of-use assets

In accordance with the Group's accounting policy (note 3.1), management estimates the recoverable amounts of property, plant and equipment and right-of-use assets when an indication of impairment exists. This requires an estimation of the value in use and fair value less costs of disposal of the cash-generating units. Estimating the value in use requires management to make an estimate of the expected future cash flows from the cash-generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows. Changing the assumptions selected by management to determine the level of impairment, including the discount rates or the growth rate assumptions in the cash flow projections, could materially affect the net present value used in the impairment test. The carrying amount of property, plant and equipment and right-of-use assets at 31 March 2021 was HK\$304,466,000 (2020: HK\$301,843,000) and right-of-use asset of HK\$698,017,000 (2020: HK\$729,475,000 (restated)). Impairment loss of HK\$14,913,000 (2020: HK\$81,029,000) and HK\$16,302,000 (2020: HK\$31,510,000), were recognised for certain property, plant and equipment and right-of-use assets, respectively. The impairment loss was estimated based on the recoverable amount of each individual restaurant cash-generating unit and determined based on a value in use calculation using cash flow projections based on financial budgets covering a period of the remaining lease term plus the anticipated renewal period approved by senior management. Further details are contained in notes 13 and 15 to the financial statements.

4. Operating segment information

The Group is principally engaged in the provision of food catering services. Information reported to the Group's management for the purpose of resource allocation and performance assessment focuses on the operating results of the Group as a whole as the Group's resources are integrated and no discrete operating segment financial information is available. Accordingly, no operating segment information is presented.

Geographical information

The following tables present revenue from external customers for the year and certain non-current asset information as at 31 March 2021 by geographical area.

(a) Revenue from external customers

	2021 HK\$'000	2020 HK\$'000
Hong Kong [#]	465,984	877,161
Mainland China	484,022	488,490
Others ^{##}	6,376	15,828
	956,382	1,381,479

The revenue information above is based on the locations of the customers.

As no revenue derived from sales to a single customer of the Group accounted for 10% or more of the Group's total revenue during the Year, no information about major customers is presented.

[#] Revenue from external customers located in Hong Kong includes revenue derived from the sale of food to a joint venture of the Group amounting to approximately HK\$5,064,000 (2020: approximately HK\$5,734,000).

^{##} "Others" mainly represents revenue derived from the sale of food to joint ventures of the Group.

11. Dividends

	2021 HK\$'000	2020 HK\$'000
Interim dividend	–	–
Final dividend proposed after the end of the reporting period	–	–
	–	–

The final dividend for the year ended 31 March 2019 of HK\$1.0 cent per ordinary share (total HK\$14,112,000) was proposed, approved and paid during the year ended 31 March 2020.

12. Loss per share

The calculation of the basic loss per share amount for the Year is based on the loss for the Year of HK\$124,114,000 (2020: HK\$317,389,000) attributable to ordinary equity shareholders of the Company and the weighted average number of 1,411,226,450 ordinary shares (2020: 1,411,226,450 ordinary shares) in issue deducting the weighted average number of shares held under the share award scheme of 32,624,000 ordinary shares (2020: 32,624,000 ordinary shares) (see note 28 (iii)).

The Group had no potentially dilutive ordinary shares in issue during the current and prior years. Accordingly, diluted loss per share for current and prior years was the same as the basic loss per share.

13. Property, plant and equipment *(Continued)*

At 31 March 2021, the Group's buildings of HK\$57,160,000 (2020: HK\$59,716,000), were pledged to secure general banking facilities granted to the Group (note 24).

As at 31 March 2021, the Group's management identified certain cash-generating units, by restaurants, which continued to underperform and estimated the corresponding recoverable amounts of their property, plant and equipment. Based on these estimates, an impairment loss of HK\$14,913,000 (2020: HK\$81,029,000) was recognised under other operating expenses to write down the carrying amounts of respective property, plant and equipment to their recoverable amounts of HK\$5,905,000. The recoverable amount is determined based on a value in use calculation using cash flow projections based on financial budgets covering a period of the remaining non-cancellable lease terms plus the anticipated renewal period. The pre-tax discount rate applied for the cash flow projection was 11% (2020: 8.3%).

Further particulars of the Group's investment properties are included on page 119.

The Group's investment properties consist of one commercial property and one industrial property in the PRC. The directors of the Company have determined that the investment properties consist of two classes of asset, i.e., commercial and industrial, based on nature, characteristics and risks of each property.

The investment properties were stated at cost and the aggregate fair value of the Group's investment properties at 31 March 2021 was HK\$190,602,000 (2020: HK\$143,270,000) based on a valuation carried out by Roma Group Limited, an independent qualified professional valuer not connected with the Group, using market comparable approach that reflects recent transaction prices for similar properties, adjusted for differences in the nature, location and conditions of the properties under review. Each year, the Group appoints an external valuer to conduct valuation on the Group's properties, and the selection criteria include market knowledge, reputation, independence and maintenance of professional standards. The Group has adopted the cost model under HKAS 40 to account for its investment properties, and accordingly, the carrying amounts of the investment properties were not adjusted to the revalued amount at the year end. Details of the Group's investment properties and information about the fair value hierarchy as at 31 March 2021 and 2020 are as follows:

The investment properties are leased to third parties under operating leases, further summary details of which are included in note 15.

15. Leases

The Group as a lessee

The Group has lease contracts for properties used in its operations. Lump sum payments were made upfront to acquire the leased land from the owners with lease periods between 28 and 41 years, and no ongoing payments will be made under the terms of these land leases. Leases of properties generally have lease terms between 3 and 9 years. There are several lease contracts that include extension and termination options and variable lease payments, which are further discussed below.

At 31 March 2021, the Group's leasehold land (included in land and buildings) and prepaid land lease payments with net carrying amount of HK\$126,073,000 and HK\$22,960,000 (2020: HK\$131,043,000 and HK\$21,762,000) are situated in Hong Kong and Mainland China, respectively. The ownership interests in leasehold land and prepaid land lease payments held are typically lasted for an initial period of 99 and 50 years, respectively.

In addition, the Group's right-of-use assets of HK\$125,491,000 (2020: HK\$130,455,000), were pledged to secure general banking facilities granted to the Group (note 24).

As at 31 March 2021, the Group's management identified certain cash-generating units, by restaurants, which continued to underperform and estimated the corresponding recoverable amounts of their right-of-use assets. Based on these estimates, an impairment loss of HK\$16,302,000 (2020: HK\$31,510,000) was recognised under operating expenses to write down the carrying amounts of respective right-of-use assets to their recoverable amounts of HK\$25,287,000 as at 31 March 2021. The recoverable amount is determined based on a value in use calculation using cash flow projections based on financial budgets covering a period of the remaining lease terms plus the anticipated renewal period. The pre-tax discount rate applied for the cash flow projection was 11% (2020: 8.3%).

The Group as a lessee (Continued)

During the year, the Group received rent concessions of HK\$22,327,000 in the form of a discount on fixed payments during the period of severe social distancing and travel restriction measures introduced to contain the spread of COVID-19. As disclosed in note 2.2, the Group has early adopted the amendment to HKFRS 16 and applies the practical expedient introduced by the amendment to all eligible rent concessions received by the Group during the year.

(iv) Extension options

The Group has several lease contracts that include extension options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and they are aligned with the Group's business needs. Set out below are the undiscounted potential future rental payments relating to periods following the exercise date of extension options that are not included in the lease terms:

19. Trade receivables

	2021 HK\$'000	2020 HK\$'000
Trade receivables	4,983	3,131

The Group's trading terms with its customers are mainly on cash and smart card settlement, except for well-established corporate customers for which the credit term is generally 60 days. The Group seeks to maintain strict control over its outstanding receivables to minimise credit risk. Overdue balances are reviewed regularly by senior management. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing. They are stated net of loss allowance.

Included in the Group's trade receivables were amounts due from the Group's joint ventures of HK\$3,212,000 (2020: HK\$697,000) as at 31 March 2021, which were repayable on credit terms similar to those offered to the major customers of the Group.

An ageing analysis of the trade receivables as at the end of the reporting year, based on the invoice date, is as follows:

	2021 HK\$'000	2020 HK\$'000
Less than one month	1,169	1,967
One to two months	2,076	1,164
Two to three months	489	–
Over three months	1,249	–
	4,983	3,131

Generally, trade receivables are written off if past due for more than one year and are not subject to enforcement activity. As at 31 March 2021 and 31 March 2020, the Group assessed that the loss allowance under the application of HKFRS 9 was minimal because the corporate customers have good background, reputation and history of repayment and the payment platforms have high credit rating and no past due history.

Non-current portion included in non-current deposits and other receivables	66,813	82,324

Other receivables mainly represented receivables from the government and value added tax recoverable.

Impairment of other receivables

The carrying amount of other receivables approximated to their fair value as at 31 March 2021 and 2020. Their recoverability was assessed with reference to the credit status of the debtors, and the expected credit loss as at 31 March 2021 and 2020 is considered to be minimal.

RMB is not freely convertible into other currencies. However, under Mainland China's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

As at 31 March 2021, the Group has pledged time deposits of HK\$579,000 (2020: HK\$1,505,000) to secure for the Group's bank guarantee facilities in lieu of rental deposits and restricted cash of HK\$2,430,000 (2020: Nil) to secure for the Group's bank loan (notes 24, 30 and 31).

NOTES TO FINANCIAL STATEMENTS

31 March 2021

21. Cash and cash equivalents, pledged time deposits and restricted cash *(Continued)*

All the pledged time deposits and restricted cash are denominated in Hong Kong dollars.

Cash at banks earns interest at floating rates based on daily bank deposit rates. The bank balances are deposited with creditworthy banks with no recent history of default.

22. Trade payables

An ageing analysis of the trade payables as at the end of the reporting year, based on the invoice date, is as follows:

	2021 HK\$'000	2020 HK\$'000

As at 31 March 2021, the Group's bank loans were secured by:

- the Group's buildings and right-of-use assets with carrying values of approximately HK\$57,160,000 and HK\$125,491,000, respectively (31 March 2020: HK\$59,716,000 and HK\$130,455,000 respectively);
- unlimited corporate guarantees from the Company and certain of its wholly-owned subsidiaries; and
- the Group's restricted cash of HK\$2,430,000 (2020: Nil).

The Group's bank loan of approximately HK\$54,983,000 (2020: HK\$59,251,000) as at 31 March 2021 containing an on-demand clause has been classified as current liabilities. Such loan is included within current interest-bearing bank borrowings.

All the Group's banking facilities are subject to the fulfilment of covenants. If the Group were to breach the covenants, the drawn down facilities would become payable on demand. The Group regularly monitors its compliance with these covenants. As at 31 March 2021, none of the covenants relating to drawn down facilities had been breached (31 March 2020: None).

At 31 March 2021	428	4,971	54	5,453

Certain subsidiaries of the Group had tax losses arising in Hong Kong of HK\$588,128,000 (2020: HK\$422,099,000) and in the PRC of HK\$70,887,000 (2020: HK\$79,282,000) as at 31 March 2021, that are available indefinitely and that will expire in five years, respectively, for offsetting against the future taxable profits of those companies in which the losses arose. At the end of the reporting period, the tax impacts of unrecognised tax losses in Hong Kong and the PRC at applicable tax rates at 31 March 2021 were approximately HK\$97,041,000 (2020: HK\$69,646,000) and HK\$17,722,000 (2020: HK\$19,821,000), respectively. In addition, the Group has not recognised deferred tax assets of HK\$25,608,000 (2020: HK\$21,698,000) in respect of temporary differences of HK\$155,202,000 (2020: HK\$134,211,000) for the year ended 31 March 2021. Deferred tax assets have not been recognised in respect of the tax losses and temporary differences as it is not considered probable that taxable profits will be available against which the tax losses and temporary differences can be utilised.

Pursuant to the PRC Corporate Income Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China. The requirement is effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between Mainland China and the jurisdiction of the foreign investors. For the Group, the applicable rate is 10%. The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries established in Mainland China in respect of earnings generated from 1 January 2008.

At 31 March 2021, no deferred tax has been recognised for withholding taxes that would be payable on the unremitted earnings that are subject to withholding taxes of the Group's subsidiaries established in the PRC. In the opinion of the directors, it is not probable that these subsidiaries will distribute such earnings in the foreseeable future. The aggregate amount of temporary differences associated with investments in subsidiaries in the PRC for which deferred tax liabilities have not been recognised totalled approximately HK\$140,134,000 at 31 March 2021 (2020: HK\$130,524,000).

There are no income tax consequences attaching to the payment of dividends by the Company to its shareholders.

Share option scheme

The Company operates a share option scheme ("**Share Option Scheme**") for the purpose of motivating eligible persons to optimise their performance and efficiency for the benefit of the Group and to attract and retain or otherwise maintain ongoing relationships with such eligible persons whose contributions are/will be or are expected to be beneficial to the Group. The Share Option Scheme became effective on 5 November 2012 and, unless otherwise cancelled or amended, will remain in force for 10 years from that date.

No share options have been granted under the Share Option Scheme since it became effective. Therefore, no share options were exercised or cancelled, or lapsed during the current year and no share options were outstanding under the Share Option Scheme as at 31 March 2021 and 31 March 2020.

28. Reserves

The amounts of the Group's reserves and the movements therein for the current and prior years are presented in the consolidated statement of changes in equity of the financial statements.

(i) Merger reserve

The merger reserve represents the reserve arising pursuant to the group reorganisation in 2012.

(ii) Statutory reserve

Transfers from retained profits to the statutory reserve were made in accordance with the relevant PRC rules and regulations and the articles of association of the Company's subsidiaries established in the PRC, and were approved by the respective boards of directors.

(iii) Shares held for the share award scheme

On 26 September 2018, the Company purchased 32,624,000 shares at HK\$0.85 each at the consideration of HK\$27,730,000 for the adoption of the share award scheme (the "**Scheme**"). The purposes of the Scheme is to recognise and incentivise certain employees, directors, agent and consultant (the "**Participants**") and to recruit additional Participants and to provide them with a direct economic interest in attaining the long term business objectives of the Company.

Success Path Limited	(c)	2,434	3,135
Champion Stage Limited	(c)	1,723	2,056
Joy Express Limited	(c)	10,293	12,285

The transactions were conducted on terms and conditions mutually agreed between the relevant parties. The directors are of the opinion that these related party transactions were conducted in the ordinary course of business of the Group.

The related party transactions in respect of the rental fees above also constitute continuing connected transactions as defined in Chapter 14A of the Listing Rules.

Notes:

- (a) The selling prices of food sold to joint ventures were mutually agreed between the parties, which approximated the market rates.
- (b) The purchase prices from a related company were mutually agreed between the parties, which approximated the market rates. The related company is owned by a non-controlling shareholder of a subsidiary.
- (c) These related parties are controlled by the current and former directors of the Company, namely Mr. Lee Yuen Hong, Mr. Ho Ting Chi, Mr. Cheung Yu To, Mr. Cheung Wai Keung and Mr. Cheung Yue Pui. Mr. Ho Ting Chi, Mr. Cheung Yu To, Mr. Cheung Wai Keung and Mr. Cheung Yue Pui are the former directors of the Company. The rental fees were determined between the Group and the parties with reference to market rates.
- (ii) Compensation of key management personnel of the Group, including directors' and the chief executive's remuneration as disclosed in note 8 to the financial statements, is as follows:

	2021 HK\$'000	2020 HK\$'000

Post-employment benefits	56	72
	5,648	8,764

NOTES TO FINANCIAL STATEMENTS

31 March 2021

34. Financial instruments by category

As at 31 March 2021 and 2020, all the financial assets and liabilities of the Group were at amortised cost.

35. Fair value of financial instruments

The carrying amounts and fair values of the Group's financial instruments reasonably approximate to fair values.

Management has assessed that the fair values of cash and cash equivalents, pledged time deposits, restricted cash, pledged time deposits with original maturity of more than three months, trade receivables, trade payables, financial assets included in prepayments, deposits and other receivables, financial liabilities included in other payables and accruals and lease liabilities approximate to their carrying amounts largely due to the short term maturities of these instruments.

The Group's corporate finance team headed by the financial controller is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The corporate finance team reports directly to the directors and the audit committee. At each reporting date, the corporate finance team analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the directors. The valuation process and results are discussed with the directors twice a year for interim and annual financial reporting.

The fair values of the financial assets and liabilities are included at the amounts at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The fair values of the interest-bearing bank borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The Group's own non-performance risk for interest-bearing bank borrowings as at 31 March 2021 and 2020 was assessed to be insignificant.

NOTES TO FINANCIAL STATEMENTS

31 March 2021

36. Financial risk management objectives and policies

The Group's principal financial instruments comprise cash and cash equivalents and interest-bearing bank borrowings. The Group has various other financial assets and liabilities such as trade receivables, deposits and other receivables, non-current deposits and other receivables, trade payables, lease liabilities, other payables and accruals and balances with joint ventures.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk and liquidity risk. The directors review and agree policies for managing each of these risks and they are summarised below.

Interest rate risk

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's borrowings with floating interest rates. The Group operates at a low gearing ratio and as the market interest rates are stable and are maintained at a relatively low level, the Group's interest rate risk is not significant.

The following table, as reported to the management of the Group, details the interest rate risk profile of the Group's borrowings at the end of the reporting period:

	Notional amount	
	2021	2020
	HK\$'000	HK\$'000
Variable rate borrowings:		
Bank loans	57,413	59,251

At 31 March 2021, it is estimated that a general increase/decrease of 100 basis points in interest rates, with all other variables held constant, would have increased/decreased the Group's loss after tax and accumulated losses by approximately HK\$574,000 (2020: HK\$593,000).

The sensitivity analysis above indicates the instantaneous change in the Group's loss after tax (and accumulated losses) that would arise assuming that the change in interest rates had occurred at the end of the reporting period and had been applied to re-measure those financial instruments held by the Group which expose the Group to fair value interest rate risk at the end of the reporting period. The analysis is performed on the same basis as 2020.

36. Financial risk management objectives and policies *(Continued)*

Foreign currency risk

The Group's monetary assets, liabilities and transactions are principally denominated in Hong Kong dollars, RMB and Singapore dollars.

The following table details the Group's exposure at the end of the reporting period to currency risk arising from recognised assets or liabilities denominated in a currency other than the functional currency of the entity to which they relate. For presentation purposes, the amounts of the exposure are shown in Hong Kong dollars, translated using the spot rate at the year end date. Difference resulting from the translation of the financial statements of foreign operations into the Group's presentation currency excluded.

	Exposure to foreign currencies (expressed in Hong Kong dollars)

Cash and cash equivalents	47	1,968	31,395	5,654

The following table indicates the instantaneous change in the Group's loss after tax (and accumulated losses) that would arise if foreign exchange rates to which the group has significant exposure at the end of the reporting period had changed at that date, assuming all other risk variables remained constant.

	2021		2020

Results of the analysis as presented in the above table represent an aggregation of the instantaneous effects on each of the Group entities' loss after tax and equity measured in the respective functional currencies, translated into Hong Kong dollars at the exchange rate ruling at the end of the reporting period for presentation purposes.

The sensitivity analysis assumes that the change in foreign exchange rates had been applied to re-measure those financial instruments held by the Group which expose the Group to foreign currency risk at the end of the reporting period, including inter-company payables and receivables within the Group which are denominated in a currency other than the functional currencies of the lender or the borrower. The analysis is performed on the same basis for 2020.
